Grade 9 Mathematics Tutorial Application

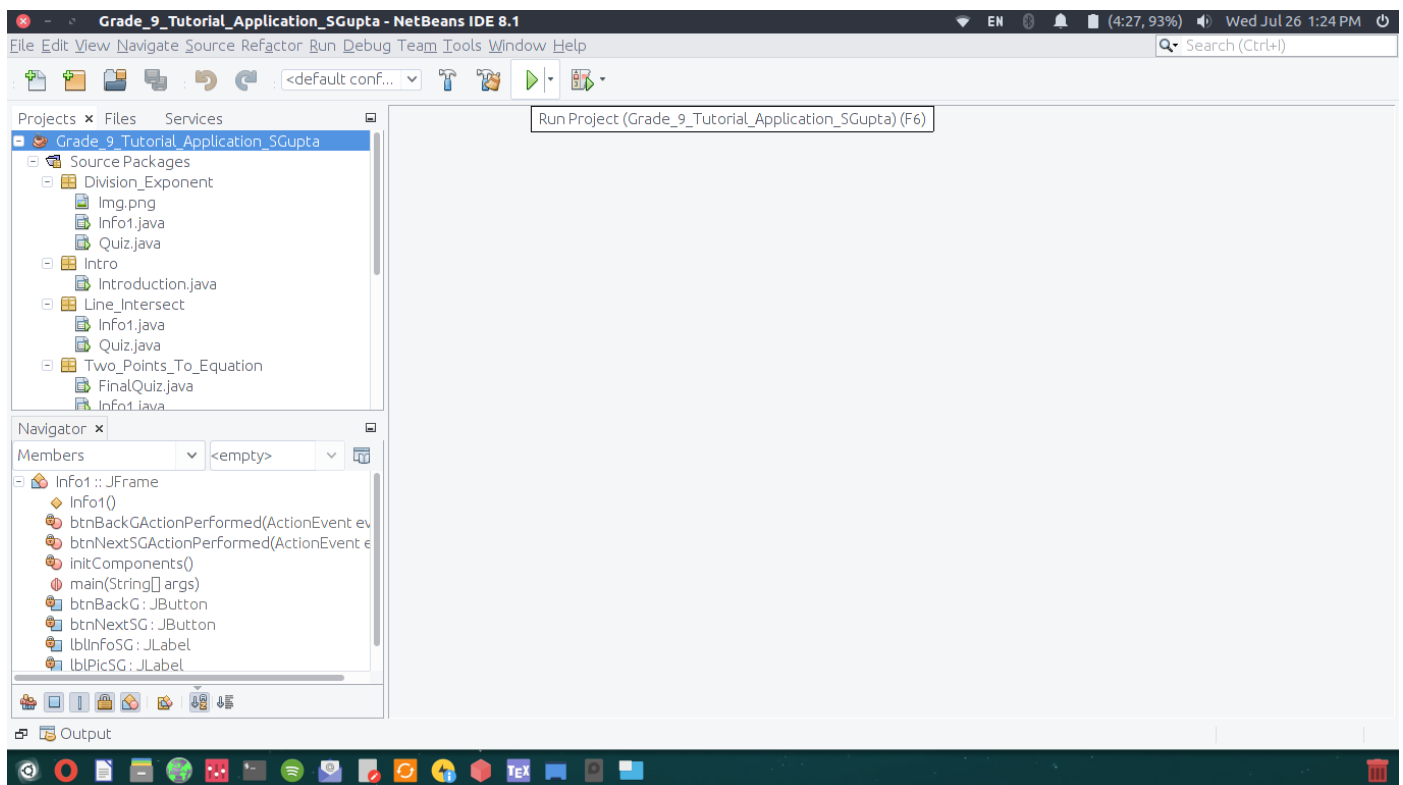

Setup

1. Installation

Simply extract the Grade_9_Tutorial_Application.zip file included, then open it in any compiler. Finally, compile it and the software will be ready.

2. How to run the program:

Once the program is open in the compiler, press run (a green arrow) or right click the project and select run.

Purpose

This gratis program's purpose is to be a powerful and helpful aid when learning mathematics at the Ontario grade 9 level. Using the program, students should be able to fortify their skill and improve their knowledge retention during class. Additionally, it provide clear information on various topics to help students “brush up” if they forget what was taught in class.

Effective Use of the Program

Upon running the project, an introduction screen will be displayed:

On this introduction screen, you can choose which program to run, and the user also has the option to exit the application. Once you pick a program, the directions are simple: follow the instructions on-screen. You are also provided with “Next” and “Back” buttons on the top of the screen to navigate.
